

# HIPPOS & CROCODILES

## Pool, lagoon and trunks

expansion by  
Néstor Romeral Andrés

### INTRODUCTION:

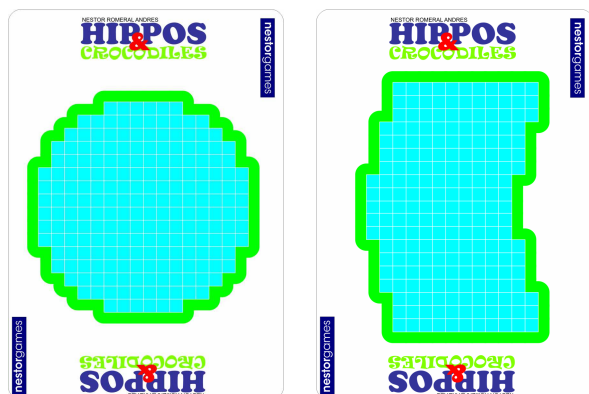

“Pool, lagoon and trunks” is an expansion for “Hippos & Crocodiles” that adds two new boards, a few trunks and some additional pieces to the base game.

You need a copy of the base game in order to use this expansion. Having a copy of the “Buffalos” expansion is also recommended.

### MATERIAL:

This **expansion** includes:

- Two new boards (pool and lagoon):

- 4 crocodiles, 4 buffalos and 4 hippos.

- 4 brown trunks (rectangular pieces).

- A cotton case.

### RULES:

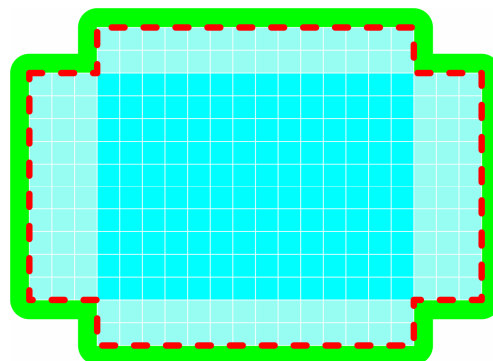

#### POOL AND LAGOON BOARDS

Play as usual with these two new boards. You can play Hippos vs. Crocs, Hippos vs. Buffalos or Crocs vs. Buffalos (you will need the **Buffalos expansion** in the latter two cases).

#### ADDITIONAL PIECES

These additional pieces allow you to play longer 2-player games in the **Buffalos** board (you will need the **Buffalos expansion**).

You can also play in the original **Hippos & Crocodiles** board using the whole surface:

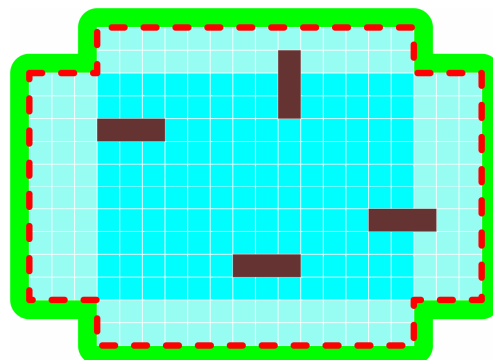

Using the whole surface in the original board

#### TRUNKS

Players can place as many trunks as they wish on the board (so that they fit with the grid) before the game starts. They must agree on the placements or use a fair method (for example: one player places them, and the other either chooses an animal or goes first).

Trunks act as obstacles during the game. No piece can be placed on top of them. You can do this with any board, but I suggest using the ones proposed in ‘ADDITIONAL PIECES’. The more trunks you place, the shorter the game is.

Example of trunks placement in the original board, using the whole surface.
